

Supplementary tables

Supplementary Table 1. Relative binding affinities and biological activities of progesterone and progestins at steroid receptors. ^{18,21,22}					
Progestogen	Progestogenic	Androgenic	Antiandrogenic	Glucocorticoid	Antimineralocorticoid
Progesterone derived					
Progesterone	+	-	±	±	+
Dydrogesterone ^a	+	-	±	-	±
Medroxyprogesterone acetate	++	±	-	+	-
Nomegestrol acetate	+	-	+	-	-
Testosterone derived					
Dienogest	+	-	+	-	-

Levonorgestrel	++	+	-	-	±
Norethisterone acetate (norethindrone)	++	+	-		-
<p>Key: – not effective; (+) weakly effective; + effective; ++ strongly effective; ± literature inconsistent.</p> <p>^a Data from Bińkowska & Woroń, 2015.²²</p>
